SUMMARY

Full Stack Developer with expertise in building responsive, high-performance web applications using React.js, Node.js, and Express. Experienced in end-to-end development from designing efficient database schemas (MongoDB, MySQL) to deploying production-ready applications. Proficient in Java and Spring Boot for building scalable RESTful APIs and microservices architecture. Strong foundation in Data Structures & Algorithms with problem-solving skills demonstrated through competitive programming. Passionate about writing maintainable code, implementing modern UI/UX best practices, and continuously learning emerging technologies to deliver robust solutions that drive business growth.

PROFFESIONAL EXPERIENCE

Intern - OctaNet Technologies

October 2023 – December 2023 (Online-Remote)

- Developed full-stack web applications using React.js, Node.js, and Express, implementing responsive UI components and RESTful APIs integrated with MongoDB and MySQL databases, resulting in seamless user experiences and optimized application performance.

Software Engineer Intern

YugaYatra Retail (OPC) Private Ltd

December 2025 – Present (Online-Remote)

- Leveraged AI-assisted development tools (Cursor AI) to build full-stack applications, wrote clean and maintainable code following industry best practices, utilized Git for version control, and contributed to sprint planning and code reviews in an Agile workflow.

SKILLS

Programming Languages: Java, C++, C, JavaScript

Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, Spring Boot, Hibernate

Databases: MongoDB, MySQL, PostgreSQL

Tools & Technologies: Git & GitHub, Postman, Maven, VS Code, IntelliJ IDEA, Cursor AI

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, RESTful APIs, Microservices

Soft Skills: Problem-Solving, Team Collaboration, Agile Methodologies, Effective Communication

PROJECTS

E-Commerce Web Platform | React.js, Node.js, Express, MongoDB

- Developed a full-stack e-commerce application with product catalog, shopping cart, and order management using MERN stack
- Integrated Razorpay/Stripe payment gateway with secure checkout flow and implemented JWT-based authentication for user sessions features like product listing, category-based filtering, cart flow, and admin dashboard using Spring Boot backend services.
- Built responsive admin dashboard for inventory management, order tracking, and sales analytics with real-time data visualization
- Optimized database queries and implemented RESTful APIs, reducing page load time by 40% and supporting 500+ concurrent users

Online Banking System | Spring Boot, Hibernate, MySQL, React.js

- Implemented Spring Security for authentication/authorization and designed normalized database schema for efficient data management
- Developed responsive frontend with React.js and integrated RESTful APIs for seamless communication between client and server

Task Management REST API | Spring Boot, MySQL, Postman

- Developed a scalable REST API for task management with endpoints for creating, updating, and tracking tasks with priority levels and deadlines
- Implemented Spring Data JPA for database operations and created custom query methods for filtering and sorting tasks

EDUCATION

Parul University | 2022 – 2026

Bachelor of Technology in Computer Science Engineering

CGPA: 7.0

Sri Chaitanya Junior College | 2020 – 2022

Intermediate (MPC)

GPA: 96%

Krishnaveni Residential School | 2016 - 2020

High School

GPA: 93%

CERTIFICATIONS

Web Development Internship (OctaNet Technologies)

- Successfully completed a certified internship focused on full-stack web development using modern frontend and backend technologies.

Full Stack Java (Simplilearn, Data Flair)

- Covered Core Java, JDBC, Spring Boot, REST APIs, Hibernate, MySQL, and frontend basics.
